

# Focus Forward

Solutions for what is next.

# Network and Communications Systems

Focus Forward assists with the integration of network and communications systems to improve manufacturing processes.

# Located in Stuttgart Germany

- EU Manufacturing Hub

A large, abstract orange watercolor splash shape on the left side of the slide, with various shades of orange and some darker spots, creating a textured, artistic background element.

# Services

- Local Area Networks
- Wireless Networking
- Voice and Telephony systems
- Video Collaboration
- IoT sensor integrations
- Systems Security
- Data-influenced Integrations

# Customers

- Manufacturing
- Industrial Tooling
- Multiple Division Entities
- Infrastructure Sectors

# United Nations Sustainable Development Goal

## Goal 12 : Responsible Consumption and Production

Advances in automation and digital monitoring (IoT) are allowing for identifying component flaws while tracking reusable materials during the manufacturing process. Combining these data points with the powers of networking and communications, companies can decrease cost, increase output and most importantly reduce environmental impact.
